WHY GETTHERE

OVERVIEW

Millions of business travelers in over 100 countries use *GetThere*®. We deliver a powerful platform to book business travel and meetings, as well as the ability to integrate with expense systems for an end-to-end experience. *GetThere* is available on desktops and notebooks, tablets and smartphones.

Our customers are among some of the world's most recognizable brands and include a majority of the BTN 100. They rely on us to be a strategic partner, streamline processes, improve supplier and contract management, and advance adoption, policy compliance, and savings. Experience convenience for your travelers, control for you and cost-savings for your company.

GetThere features a browser-based, HTML5 solution compatible with iPhone, Android, Blackberry and other web-enabled mobile devices. We also sync with TripCase Corporate, the popular itinerary management app that now offers features designed specifically for managed travel programs.

TRAVEL MANAGEMENT

The most modern and stable booking platform in corporate travel, *GetThere* maintains 99.9 percent proven system uptime while driving more than 12 million bookings annually. We're available whenever your travelers need us.

- Convenient online access to air, car, hotel, rail reservations and more 24/7
- Easy-to-use interface modeled after popular travel and social networking sites
- Travel policy and preferred supplier compliance

EXPENSE MANAGEMENT SOLUTIONS

GetThere offers integrated travel and expense management solutions that help corporations realize significant business benefits including process improvement, enhanced policy compliance and cost savings.

- Seamless online expense reporting (automated submission, approval and audit)
- Automated cost code and policy validation, and payment to card providers and employees
- Comprehensive data analytics and reporting based on expense data

TRAVEL POLICY

A rules-based, enterprise-level engine that gives policy administrators greater control, flexibility and configuration options to establish policy rules and requirements. With easy-to-use templates and a sophisticated decision engine behind the scenes, administrators can build complex and unique rules that suit their specific program.

GETTHERE EXPENSE INTEGRATION

GetThere works with robust expense reporting solutions so customers can derive the most value from their investment and leverage products from our leading partners globally. We partner with various expense tool providers which give you the flexibility to choose the solution that best fits your needs.

GETTHERE TICKET MANAGER

Ticket Manager empowers your users to do more online. Unused Ticket Messaging alerts travelers of unused available tickets as they shop for a trip. Ticket Manager Exchange is an intelligent, fully automated solution that allows corporate travelers to exchange a ticketed reservation online.

GETTHERE DEMAND MANAGEMENT

The *GetThere* Demand Management Suite is a bundle of global products, services and pricing that helps corporate customers reduce travel demand and expenses through increased control, accountability, targeted messaging and strategic consulting.

TRAINING AND GAMIFICATION

GetThere offers more than 20 e-tutorials designed to help travelers master various features. Additionally, *GetThere* offers custom tutorials and games that reinforce best practices. All training content is developed by *GetThere* University and intended for travelers, travel arrangers and site administrators.

THE GETTHERE DIFFERENCE

Continuous Innovation

As the first corporate online booking platform, *GetThere* has long been the unrivaled leader in online collaboration. We help you stay ahead of the curve with cost-saving, efficiency-enhancing features built atop the industry's most modern and stable platform. We drive more than 12 million travel transactions annually and serve 11 million active users with system uptime at 99.9 percent, the highest in the industry. Our customers average 81[1] percent online adoption (with top customers averaging 95 percent), well above the industry-average of 58 percent[2].

Unrivaled Expertise

No one does service like *GetThere*. We take a consultative approach to your program, anticipating needs and deliver solutions that keep you ahead of the curve. Lean on our team on the ground in 17 countries, with regional leadership worldwide for local expertise and support wherever you operate globally. The proof? Our Top 20 customers have been with us for an average of nearly ten years. Our CSM's average 15 years in account management.

Infinite Choice

GetThere is flexible. Our customers can configure their sites from 3,000 options and have the opportunity to work with any travel management company, integrate with leading expense solutions and use multiple types of upload processes. Business travelers appreciate the ease-of-use and efficiency of *GetThere*, which is designed after popular leisure travel and social networking sites and built on best practices. Users get the most content available anywhere, the ability to compare multiple options on a single screen and consider travel alternatives while shopping for a trip.
